Dear Dr. Federbey,

Thank you very much for your batch of interesting reprints which I am very glad to have. I enclose a letter of Dr. Cavalli and would be very grateful if you would be so kind and send me the original Hfr strain, and, if possible, one Hfr strain with additional markers. The strain 58-161 that I got from Dr. Davis has lost B<sup>-</sup>; if that should also be the case for the Hfr strain, I would of course be very glad, if you could send me Hfr with an additional unselected requirement, only in case you should have such a strain. If it is not too much trouble for you, I would also very much appreciate if you could notify me which additional markers your strain H1177 contains, since I got several strains with S<sup>r</sup>, T<sup>r</sup> and V<sup>r</sup> from Dr. Davis, and therefore might possibly make use of the additional markers contained in H1177.

Many thanks in advance for all the trouble I cause you

Sincerely yours,

*Marguerite Woyt*
